Miramar forklift training weekly review

Invited [Peter Nemrow](#) training@miramarforklift.com

Attachments  [Miramar forklift training weekly review](#)

Meeting records  [Transcript](#)

Summary

The meeting reviewed website interface updates and operational scheduling logic while finalizing the photo identification revenue strategy.

Website Interface And Navigation

New sandbox features allow internal testing of dashboard functions. Structural changes now permit users to select specific training types directly on the landing page.

Operational Scheduling And Locations

Zip code validation transitioned to city selection to improve regional accessibility. Training session availability is now organized across 3 centers to manage capacity.

Photo Identification Revenue Decision

Offering photo identification as a 25 dollar add-on during checkout was approved to increase potential revenue. This feature will prompt users for image uploads immediately after course completion.

Decisions

Aligned

- **Location selection method updated** The training location selection process is updated to allow users to select by city instead of by zip code.
- **Location-specific training schedules established** Training schedules are assigned to specific days per location (Fresno: Saturdays; Las Vegas: Mondays; San Diego: Mon/Wed/Fri), with a "to be confirmed by the trainer" status applied to Las Vegas listings.
- **Photo ID purchasing and upload workflow** The photo ID option is offered at checkout, while the actual photo upload workflow is deferred until after the user completes the course.

We've **updated the Decisions section** using your feedback.

Let us know what you think: [Helpful](#) or [Not Helpful](#)

Next steps

- ☐ [Peter Nemrow] Purchase Analysis: Investigate why multiple training purchases occurred unexpectedly for the San Diego location.
- ☐ [Peter Nemrow] Update Selection Flow: Modify the initial website process to prioritize location before choosing a training program.
- ☐ [Peter Nemrow] Configure Calendar Logic: Define date availability based on specific training days per city with a disclaimer for trainer confirmation.
- ☐ [Peter Nemrow] Implement Photo ID Sales: Enable an option to purchase identification cards after course completion with the ability to upload images.
- ☐ [Peter Nemrow] Finalize Development Updates: Complete the remaining website maintenance tasks to prepare for the upcoming testing phase.
- ☐ [The group] Conduct System Testing: Evaluate the new website features and flows together during the next testing cycle.

Details

- **Recent Travel and Weather Conditions:** alberto rawlins and Peter Nemrow discussed their recent travels and the intense summer heat. alberto rawlins detailed a busy two-week travel schedule covering Fresno, Bakersfield, Las Vegas, Los Angeles, and Temecula. They recounted conducting an outdoor training session in Las Vegas in temperatures reaching 105 to 110 degrees Fahrenheit due to indoor space constraints caused by incoming truck shipments ([00:03:12](#)) ([00:05:38](#)). alberto rawlins described pouring water over their head and back to endure the two-hour session, which was extended because three participants lacked prior experience, resulting in them feeling ill and needing to rest their car afterward ([00:04:27](#)). Peter Nemrow shared that they had just completed a drive from California to Utah, noting that the overnight temperature in Las Vegas remained at 100 degrees Fahrenheit ([00:05:38](#)).
- **Surge in Training Bookings:** alberto rawlins shared that four separate training purchases for the CISO lift program in San Diego were made through their website yesterday and today ([00:05:38](#)). They noted this was a significant deviation from the typical volume of one or two purchases per week. alberto rawlins inquired if Peter Nemrow had modified or promoted anything online to trigger this influx, but Peter Nemrow clarified that they had not published any new online content ([00:07:00](#)). alberto rawlins added that the clients followed up with phone calls to confirm their reservations, which were successfully verified and acknowledged via email ([00:08:03](#)).
- **Website Sandboxing and Admin Features:** Peter Nemrow demonstrated a new testing feature on the website, indicated by a top yellow banner labeled "local de sandbox payment only not log in". Peter Nemrow explained that this sandbox mode is completely disconnected from authorized.net and visible only to them and alberto rawlins for internal testing purposes ([00:09:05](#)). The feature allows them to log in instantly as an admin or a crew admin. Peter Nemrow demonstrated that logging in as a certified student allows them to view completed courses and certificates directly on the dashboard, eliminating the requirement to create new testing accounts ([00:10:11](#)).

- Dashboard Visuals and Interface Updates:** Peter Nemrow displayed the user interface for online training programs, noting that placeholders are currently being used and that they are actively working to replace them with professional images. They showcased the distinct interface provided for crew administrators, which features specific tools to manage teams, track seat assignments, monitor member progress, view certificates, and utilize a compliance dashboard for audit preparation. Additionally, Peter Nemrow showed the admin view, pointing out integrated tracking sections for revenue, bookings, and leads, while noting that further enhancements are being developed for the admin module ([00:11:18](#)).
- Training Type Selectors and Request Quotes:** Peter Nemrow implemented a structural change based on alberto rawlins's previous feedback, allowing users to choose between on-site training, hands-on training, and online certification directly on the main landing page. Peter Nemrow explained that selecting the on-site training option routes users directly to a request form instead of a payment gateway. This form is designed to collect the number of participants, the training type, and an optional preferred date in order to generate a custom quote ([00:12:39](#)).
- Location Selection and Zip Code Requirements:** Peter Nemrow presented a zip-code validation step for the hands-on training option at their three centers, demonstrating that entering a Fresno zip code originally triggered a message stating training was unavailable because regular training times were not configured in the system for that zone ([00:13:50](#)). alberto rawlins objected to using zip codes, explaining that their training locations are fixed in Fresno, Las Vegas, and San Diego, and that trainees frequently travel across counties or states—such as from Hayward, Modesto, Bakersfield, or Las Vegas—to attend the closest available center ([00:15:15](#)). Peter Nemrow agreed to simplify the workflow by replacing the zip-code field with a direct city selection dropdown (Fresno, Las Vegas, or San Diego) as the initial step before proceeding to date selection ([00:17:30](#)).
- Scheduling Logic and Regional Travel Constraints:** The participants established specific scheduling availability rules for each training location based on alberto rawlins's operational capacity. Fresno will show Saturdays available at 10:00 a.m ([00:17:30](#)) ([00:19:54](#)). Las Vegas will offer Mondays, but alberto rawlins noted that trips there require a minimum of four participants (typically split between morning and afternoon corporate groups) to cover travel expenses

(00:18:36). San Diego will offer training on Mondays, Wednesdays, and Fridays (00:19:54). To manage overlapping Monday availability between Las Vegas and San Diego, Peter Nemrow agreed to add a "to be confirmed by the trainer" label next to the Las Vegas Monday time slots, leaving San Diego without an explicit warning for now (00:21:04). If Las Vegas bookings scale reliably, alberto rawlins will relocate the San Diego Monday sessions to Tuesdays or Thursdays. Peter Nemrow also committed to building a system alert that will notify alberto rawlins if separate customers book conflicting locations on the exact same calendar day (00:22:26).

- **Order Processing and Attendee Name Collection:** alberto rawlins explained a frequent administrative scenario where corporate managers purchase multiple training certifications under their own name and billing information. To handle this, alberto rawlins sends an immediate email response to order confirmations thanking the client and requesting the actual first and last names of the employees who will be attending the session, citing a recent example where a manager bought two slots for employees named Horge Perez and Francisco Roas (00:23:35).
- **Photo ID Upselling and Photo Upload Workflow:** Peter Nemrow raised a design decision regarding whether to offer a photo ID option during the initial website checkout or after course completion (00:25:03). alberto rawlins favored offering it as an add-on during the initial checkout phase, suggesting a prompt asking users if they are sure they want a license without a picture, and noting that adding a photo carries an extra \$25 fee on top of the base \$45 license fee (00:26:36). They clarified that while OSHA does not mandate a photo for a license to be valid, the feature represents a high-margin revenue source. The agreed-upon design specifies that if a user pays for the photo ID at the start, they will be prompted to upload their picture immediately after passing the test (00:27:44). If they do not purchase it upfront, a button will appear upon course completion offering them the option to buy and add the photo ID (00:28:52).
- **Testing Timeline and Future Milestones:** Peter Nemrow concluded the project discussion by stating they had collected all necessary design feedback and would integrate the updates over the coming week. They established that the testing platform would be ready for both participants to resume comprehensive system testing by the following week, which alberto rawlins agreed would surface finer operational questions (00:28:52).

- **Personal Travel Plans and Recreational Interests:** Peter Nemrow shared that they will remain in Utah until August 10th to accommodate their son's attendance at a tennis camp and an upcoming family reunion ([00:30:07](#)). alberto rawlins shared that they played competitive tennis in their youth, reaching the first category, but transitioned to squash, racquetball, paddle tennis, and pickleball 20 years ago due to the time commitment required for full tennis matches. They noted that they find pickleball too slow-paced compared to sports that require more running and physical exertion. Peter Nemrow expressed a personal preference for ping pong due to the lack of movement required, and both participants agreed to play a match together in the future ([00:31:09](#)).

Miramar forklift training weekly review - Transcript

00:03:12

alberto rawlins: Hey, Peter.

Peter Nemrow: Hi, Alberto.

alberto rawlins: How are you?

Peter Nemrow: Oh, I'm a little tired.

alberto rawlins: Me, too. To be honest, the last two weeks, oh, I've been moving around. I've been to Fresno, Bakerfield, Las Vegas, Los Angeles, uh, Tmacula, all over the place.

Peter Nemrow: I don't I don't know how you do it. Especially during summer. It's so

alberto rawlins: Well, you know,

Peter Nemrow: hot.

alberto rawlins: in in in uh in Las Vegas, um usually it's it's not complicated because the office we have there is a huge building and uh they have rack inside and it's ventilated. It's good. But this Monday that I did a training, they were fully inside with all the pilots. They receive a couple of tracks. So I didn't have a space to do the handsome training inside. I had to do it outside and it was like 105 110 degrees.

Peter Nemrow: Oh my gosh. How did you do

alberto rawlins: So I did I did the training in the morning and in the afternoon.

00:04:27

alberto rawlins: And you know what?

Peter Nemrow: that?

alberto rawlins: Well, I use a cup, but I had a couple of bottles of water and start pouring water my head, in my back, in my hands, like uh all the time. And it was unfortunately usually the guys have experience, so it's just quickly. But in this case, there's three guys that didn't have experience, so I was there like two hours. So, at the end of the day, you know, I was so uh kind of I was telling my wife like I was I was feeling kind of sick. I had to stop the car, rest for a while. I mean, it was terrible. Terrible.

Peter Nemrow: Oh my gosh. I I can't

alberto rawlins: But you know what? It it wasn't that bad. I mean, it's I mean, yeah.

Peter Nemrow: You survived

alberto rawlins: Yeah, I survive. I've survived.

Peter Nemrow: it.

alberto rawlins: Next time if if you're not able to reach me means it went not

Peter Nemrow: Yeah.

alberto rawlins: good.

Peter Nemrow: Well, I hope you call me before uh something like that happens.

00:05:38

Peter Nemrow: But uh I I just I literally just um arrived in Utah. So, I drove I drove from California to Utah.

alberto rawlins: Okay.

Peter Nemrow: I stayed in Las Vegas last night. And it it's just it's very hot.

alberto rawlins: Okay.

Peter Nemrow: Even at night, it's still 100°. Greece, you know,

alberto rawlins: Yeah. Yeah. No, it's it's you you walking short and everything is

Peter Nemrow: you

alberto rawlins: tight uh sweating and No, it's it's a disaster. I mean, it's uh I mean, I like it for a couple of days uh if you are in a hotel and swimming pool and all that, but working it's not nice.

Peter Nemrow: Yeah.

alberto rawlins: So when when did you are are you in uh utter now?

Peter Nemrow: Um, I am Yeah, I just got here like 15 minutes ago.

alberto rawlins: Oh okay. Good good timing. Good timing. So let let me ask you something because I don't know why and it was

Peter Nemrow: Yeah.

alberto rawlins: I don't know if it is a coincidence or not but yesterday and today I receive or they purchase through the site for training for tomorrow.

00:07:00

alberto rawlins: Okay. Uh and usually well I received like one one purchase a week or two a week or or or so. But yesterday coincid co coincidentally uh one guy purchased two training uh another guy in the afternoon another training this morning another guy another training for tomorrow and all for CISO lift here in San

Peter Nemrow: Wow.

alberto rawlins: Diego.

Peter Nemrow: Wow. I don't

alberto rawlins: So I I I was thinking,

Peter Nemrow: know.

alberto rawlins: oh maybe Peter did something or put something and I don't know it was whatever you did if you did something it was

Peter Nemrow: Yeah.

alberto rawlins: good.

Peter Nemrow: You know, I'll take credit. No, that's that's good to hear.

alberto rawlins: No.

Peter Nemrow: Um maybe I can investigate you know why.

alberto rawlins: Yeah.

Peter Nemrow: Um but I have not published anything new online.

alberto rawlins: Okay. Okay.

Peter Nemrow: So um that's good good fortune and I hope we have more of

alberto rawlins: Yeah.

Peter Nemrow: that when we as we do publish and make things

alberto rawlins: Yeah. Perfect.

00:08:03

Peter Nemrow: better.

alberto rawlins: Perfect. Yeah. I mean it was it was a good news. I mean the guys called me also after they made the reservation called me and just to confirm that everything was okay. I received the email forward that to them. So it was good. It was good.

Peter Nemrow: Yes. Well, great. That's good to hear.

alberto rawlins: Mhm. Yeah.

Peter Nemrow: Um I want to show you some of the updates that I've made to our site since our last um meeting.

alberto rawlins: Mhm.

Peter Nemrow: Um, there's still some updates that I'm still working on. Um, but there's also some new features that are is going to make it easier for you and me to test. Okay.

alberto rawlins: Perfect.

Peter Nemrow: Um,

alberto rawlins: Perfect.

Peter Nemrow: so let me let me show you um my entire screen.

alberto rawlins: Mhm.

Peter Nemrow: Sh. you know, can you see yourself in the bottom corner or

alberto rawlins: Oh, yeah. On the on the right on the right side.

00:09:05

Peter Nemrow: Yeah.

alberto rawlins: I'm I'm I'm

Peter Nemrow: Yeah. Okay. So, I need to re I'm going to stop and then I want to share just my

alberto rawlins: there.

Peter Nemrow: um Chrome screen. Uh here we go. Okay. Can you see

alberto rawlins: Yeah. Now I see the whole screen.

Peter Nemrow: Okay,

alberto rawlins: Mhm.

Peter Nemrow: there's a few things that I want to show you. Um, so the first is a feature.

alberto rawlins: Mhm.

Peter Nemrow: Um, this feature is this yellow bar at the top. This will only be seen by you and I.

alberto rawlins: Oh, okay.

Peter Nemrow: So we when we publish it to the public this will you

alberto rawlins: Mhm.

Peter Nemrow: won't see this.

alberto rawlins: You mean the top yellow one that says local de sandbox payment only not log

Peter Nemrow: Okay.

alberto rawlins: in? That one.

Peter Nemrow: Yeah.

alberto rawlins: Okay.

Peter Nemrow: Yes.

alberto rawlins: Okay. Perfect.

Peter Nemrow: So this is not it's not hooked up to authorized.net. It's this this is just a testing.

00:10:11

alberto rawlins: Perfect. Perfect.

Peter Nemrow: But what this allows us to do is if I click on it,

alberto rawlins: Mhm. Oh.

Peter Nemrow: you can immediately sign in as the admin or a crew admin individual.

alberto rawlins: Perfect.

Peter Nemrow: So if you want if you wanted to see what it looks like to a student that is certified,

alberto rawlins: Okay,

Peter Nemrow: you can come in here. Um now it shows that we are logged in and we can go to our

alberto rawlins: perfect.

Peter Nemrow: dashboard and we can see that we have completed our course.

alberto rawlins: Perfect.

Peter Nemrow: We can see the certificate and test very easily. So you don't always have to make new accounts.

alberto rawlins: Perfect. Perfect. Very good.

Peter Nemrow: So with that let's um let's go through we can see what a um an individual who's doing online

alberto rawlins: Mhm.

Peter Nemrow: training what they would see. So if we go to dashboard um so we have forklift train

alberto rawlins: Mhm.

Peter Nemrow: the trainer certification we have online forklift so we can see what

00:11:18

alberto rawlins: Mhm.

Peter Nemrow: this course looks like as we take it this is and and

alberto rawlins: Perfect.

Peter Nemrow: I am still working on changing these to real professional

alberto rawlins: Yeah, don't worry.

Peter Nemrow: pictures but this will make it much easier for you and

alberto rawlins: I mean, I understand it's just a temporary thing.

Peter Nemrow: me to go through and just um you know we can click on this and then it will log us in. And if we go to the dashboard we can see um for instance the crew admin'll get a totally different dashboard.

alberto rawlins: Mhm.

Peter Nemrow: Um, let's Uh we go to our crew button here and we can see how they can manage their teams with their own dashboard.

alberto rawlins: Perfect.

Peter Nemrow: The seed assignments um the progress of their members their certificates and then a compliance dashboard.

alberto rawlins: Mhm.

Peter Nemrow: Um, so they if if they get audited, um, if we go into the admin, I'm still making changes with the admin, but we come into our admin view.

alberto rawlins: Mhm.

Peter Nemrow: And here we can see, you know, the money that you're making and um,

00:12:39

alberto rawlins: Perfect.

Peter Nemrow: the bookings that you have, your leads. Again, we're still filling out everything, but it just makes it very simple for you to

alberto rawlins: Yeah, that's what I I I can see that it's kind of uh pretty straightforward.

Peter Nemrow: test.

alberto rawlins: Uh and click on all the admin options there.

Peter Nemrow: Yes. Um, so we are still working on improvements in the admin section,

alberto rawlins: Yeah.

Peter Nemrow: but let's log out. I want to see what the website looks like. So, first you mentioned last week that you want to bring the different options for online or inperson or on-site. You want them to be able to select it on the first page, right? Um, so here, if we scroll down,

alberto rawlins: Yes,

Peter Nemrow: we can see we have on-site training, hands-on training, online certification.

alberto rawlins: perfect. Perfect. The three options.

Peter Nemrow: Now, the on-site training will only take you to a request

alberto rawlins: Okay.

Peter Nemrow: form. So, you're not um actually paying anything.

00:13:50

Peter Nemrow: You're requesting a quote.

alberto rawlins: Yeah, exactly. Good.

Peter Nemrow: Um the number of participants,

alberto rawlins: Good.

Peter Nemrow: the training type, we'll capture all of that information along with the preferred date,

alberto rawlins: Mhm.

Peter Nemrow: which is optional, but it's just to get a quote. Okay. So if I come down and come back to the main page and we click on the hands-on training first we want to check their zip code right. So if I um let's first test a Fresno zip

alberto rawlins: Mhm.

Peter Nemrow: code.

alberto rawlins: 93. Okay. Well, you have

Peter Nemrow: Okay.

alberto rawlins: one.

Peter Nemrow: Now this and I want to get your feedback here. Okay. So, you'll see this says it's not available in your area, but I know that you do trainings in your area in Fresno. Now, the reason is because, okay, if I go um Oh, what's uh let's do San Diego and I check here. She Here you can select your program and then you can select a time now because you are you have regular times in San Diego that you do your trainings.

00:15:15

Peter Nemrow: That's why it's showing available for the zip code because you have a regular time. Now, if I go back and let's put in the

alberto rawlins: What?

Peter Nemrow: Fresno zip code, we can either get certified online, we can do the online certification or we can request a custom quote. So, this

alberto rawlins: Hold on. Hold on.

Peter Nemrow: is

alberto rawlins: Let let me let me see if I understand correct. Okay. So you you click on which which options that you

Peter Nemrow: okay.

alberto rawlins: click?

Peter Nemrow: So if I come at the top.

alberto rawlins: Yeah.

Peter Nemrow: So I did hands-on training train at one of our three

alberto rawlins: Hands on. Okay. Perfect. Okay. Perfect. So why why do you have to put the

Peter Nemrow: centers.

alberto rawlins: zip code and not the the city that we are located?

Peter Nemrow: Um this one

alberto rawlins: because the the the location that we are located are kind of fixed. Not we're not going to we're not going to be moving around everywhere.

00:16:23

alberto rawlins: I mean we are in Fresno. We have an address. We had the place.

Peter Nemrow: Mhm.

alberto rawlins: We could cover any area because for instance I have guys coming to Fresno from Hayward, from Modesto, from Fresno,

Peter Nemrow: Okay.

alberto rawlins: from Bakerfield, from any places that they are, but they prefer Fresno because it's the closest for them to go.

Peter Nemrow: Mhm.

alberto rawlins: So they don't need to be in a certain area and because there there for

Peter Nemrow: That makes

alberto rawlins: instance some sometimes once I receive one guy that was coming from Vegas but

Peter Nemrow: sense.

alberto rawlins: he has a friends or a brother living in Fresno and he's going to be there that weekend so took the chance to take the training there but he was not from

Peter Nemrow: Mhm.

alberto rawlins: Fresno was from Vegas but he took the training anyway in Fresno.

Peter Nemrow: Yes.

alberto rawlins: So in instead of giving them the option of the zip code to select, I think it's easier for them to put the actual city that we have

Peter Nemrow: Yeah.

00:17:30

alberto rawlins: the

Peter Nemrow: So they select Fresno, Las Vegas or San Diego and then it just goes so that so okay that's

alberto rawlins: exactly

Peter Nemrow: that makes it very much more simple right we we'll just the first step will be select your

alberto rawlins: exactly

Peter Nemrow: location and then it moves to selecting the date and now the question is for the select your

alberto rawlins: Exactly. Mhm.

Peter Nemrow: date If they select Fresno,

alberto rawlins: Yeah.

Peter Nemrow: what do you want them to see for selecting their

alberto rawlins: For instance, right now what I have in Fresno is Saturdays.

Peter Nemrow: date?

alberto rawlins: every Saturday at 10:00 a.m. So what I do is if I'm not able to go to Fresno on Saturday uh in one particular Saturday when I receive the confirmation I call the guys and say hey listen this coming Saturday we're not going to do a class we are uh just have only two guys we need to move you for next week something like that or kind of flexible to accommodate okay so this week we're not going to do

00:18:36

Peter Nemrow: Okay.

alberto rawlins: it Saturday, but it's going to be Thursday. Can you make it? Yes, I move him to uh Thursday or for next Saturday. But in in theory, I have like a fixed calendar at least one day a week for each location. in Vegas for instance is Monday even though when I talk to the guys uh I spoke with them and then uh it can be flexible could be another day of the week. So um we can put something like I think we have on the a kind of a fixed state uh but to be confirmed or something like

Peter Nemrow: Okay.

alberto rawlins: that.

Peter Nemrow: Um so for instance when they let's say they select a location and then the next thing they will see is selecting a training

alberto rawlins: Yeah.

Peter Nemrow: program and then after they select a training program which I

alberto rawlins: Exactly. Mhm.

Peter Nemrow: think I have one selected here.

alberto rawlins: Yep.

Peter Nemrow: We click next.

alberto rawlins: Perfect.

Peter Nemrow: So if if this is Fresno then we will have

00:19:54

alberto rawlins: Saturday.

Peter Nemrow: Saturdays available.

alberto rawlins: Mhm.

Peter Nemrow: If this is Las Vegas,

alberto rawlins: Perfect.

Peter Nemrow: what day would you want to have?

alberto rawlins: It's going to be Monday.

Peter Nemrow: Monday and then San

alberto rawlins: Yeah.

Peter Nemrow: Diego.

alberto rawlins: Monday, Wednesday, and Fridays.

Peter Nemrow: Wait, how do you do Monday in Las Vegas and San Diego?

alberto rawlins: Well,

Peter Nemrow: Mhm.

alberto rawlins: that's why if let's say I have one guy in Well, I only go to Las Vegas if I have enough people that justify the trip, which is means at least four guys. And usually is like one company in the morning,

Peter Nemrow: Yes.

alberto rawlins: one company in the afternoon, and the rest in the afternoon. So, if I have one company that I do three guys, let's say \$1,000, and then two or three guys h in the afternoon, I go to the company and then to the office. And if I have one person in San Diego, I moved that person. So, whoever is more money I try to accommodate. Okay.

00:21:04

alberto rawlins: Uh either and it's much easier to move San Diego because I still don't

Peter Nemrow: Okay.

alberto rawlins: have like 10 guys in one day.

Peter Nemrow: Yeah.

alberto rawlins: Usually I have one or two guys, maybe three guys. The day that I have most and because a company send here is five or six guys. But usually when they select to that option is one or two for instance tomorrow and is is lucky because this

last purchase that I mentioned I have three guys in the morning and one guy in the afternoon. So

Peter Nemrow: Okay. So what I'm hearing is that for this website,

alberto rawlins: it's

Peter Nemrow: you know, publicly at Las Vegas, we will have Monday available and maybe

alberto rawlins: Yes.

Peter Nemrow: there should be a message that says um like call or not call but

alberto rawlins: No.

Peter Nemrow: like to be confirmed by the

alberto rawlins: to be to be confirmed by the trainer.

Peter Nemrow: trainer.

alberto rawlins: They click on the date Monday 9:00 a.m. or Monday 100 p.m. and we can put on the side to be confirmed by the trainer or something like

00:22:26

Peter Nemrow: And do we all other days we should make

alberto rawlins: that.

Peter Nemrow: unavailable?

alberto rawlins: Uh so far,

Peter Nemrow: Okay. So,

alberto rawlins: yeah,

Peter Nemrow: we'll just have Monday um to be confirmed by the trainer and then on San Diego we will have and should

alberto rawlins: Monday, Wednesday, and Fridays.

Peter Nemrow: Monday only be confirmed by the trainer or should we have Monday, Wednesday, Friday also be confirmed by the

alberto rawlins: No,

Peter Nemrow: trainer?

alberto rawlins: I I I in in San Diego, I wouldn't put anything. If we start receiving a lot of uh um training from um Vegas,

Peter Nemrow: Well, I see

alberto rawlins: okay, and we know for sure that every Monday are going to be doing the training,

Peter Nemrow: it.

alberto rawlins: probably we'll remove Monday in San Diego and we put it on another day, let's say Thursday or Tuesday, whatever.

Peter Nemrow: Okay, that makes sense. And I think what we can do so the customers will see it as available. Um,

alberto rawlins: Yeah.

Peter Nemrow: if we have two customers booking on the same day at different locations,

00:23:35

alberto rawlins: Mhm.

Peter Nemrow: when you log in,

alberto rawlins: If

Peter Nemrow: when you log into the website,

alberto rawlins: we

Peter Nemrow: it should send you an alert so that you can be aware of that that you need to contact and that that you need to make a decision between where you're going to go.

alberto rawlins: You you know what happened uh Peter and It's very common. For instance, uh the purchase that they did yesterday, the same guy purchased two certification, the same information, the same name, the same that, but he was the manager of the company. So what I when I receive the order confirmation, the order number and immediately I reply to that email say thank you for hi, hello, good morning,

good afternoon, thank you for your order. Please confirm the name of the person who's going to be attending the training. Okay. And our training location is this because we are in a different area. Okay. H and I wait the the email back and usually is okay. The guy who was going to be attending the training is Horge Perez and the other one says Francisco Roas which is two of the employees and he purchased he's the one who purchased the the training but there are different people coming to the training.

00:25:03

Peter Nemrow: Okay.

alberto rawlins: That's very common.

Peter Nemrow: Yeah. Okay. Um, so I I think uh this makes sense. Um, do you have any questions from what we've seen so far or any

alberto rawlins: No, I mean I it's looking good.

Peter Nemrow: other?

alberto rawlins: I mean I I think it's it's it's uh it's pretty uh customer friendly.

Peter Nemrow: Okay, great.

alberto rawlins: Yeah.

Peter Nemrow: Um I think that that gives me really specifically what

alberto rawlins: Mhm.

Peter Nemrow: changes we need to make. Um there's one more decision that I have regarding uh so we want to collect the shipping information at the checkout. You know we want to collect that information early because you you'll be

alberto rawlins: Mhm.

Peter Nemrow: sending those cards to them. license. Um,

alberto rawlins: Yeah.

Peter Nemrow: do we want to offer the photo ID at checkout as well or do we only want to offer the photo ID after they've completed?

alberto rawlins: Sorry.

Peter Nemrow: Um, so do we want to sell them the photo ID option at the original checkout or do we do we want to wait to offer the photo ID option after they completed training?

00:26:36

alberto rawlins: I for the online you're talking about, right?

Peter Nemrow: Mhm.

alberto rawlins: Uh yeah, I mean I think it's it's a good option when they're going to about to pay and they know that is \$45 and um you can show them are you sure you want the license without the pictures? If you want the If you if you want the picture,

Peter Nemrow: Yeah.

alberto rawlins: there is an additional charge of \$25. Please upload your picture similar to this one and then process the

Peter Nemrow: Heat.

alberto rawlins: payment

Peter Nemrow: Uh yeah, I think we'll just process the payment.

alberto rawlins: and then ask them to Yeah. blow the f***. Yeah,

Peter Nemrow: Yeah,

alberto rawlins: you're right.

Peter Nemrow: then yeah,

alberto rawlins: It's much better.

Peter Nemrow: each employee can um upload their own picture and or or should we only let

alberto rawlins: Mhm.

Peter Nemrow: the manager upload the picture?

alberto rawlins: Um, no. I

Peter Nemrow: because the employee could upload a a silly picture or something

alberto rawlins: mean

Peter Nemrow: that's, you

alberto rawlins: I mean to be honest,

00:27:44

Peter Nemrow: know.

alberto rawlins: OSHA does not require in order to have a valid license to have a picture. That's optional. So, and and and I've seen in fact one time I went to a company and the guy put

Peter Nemrow: Okay.

alberto rawlins: a mask of uh Spider-Man and took a picture and said, "No, no, no. This is how I want to look in the lights. Are you sure?" Really? And there were a couple of other guys. Sure. Okay. No problem.

Peter Nemrow: Okay. So,

alberto rawlins: The picture

Peter Nemrow: we want to give the the student the option to choose their picture when they complete the

alberto rawlins: Yeah,

Peter Nemrow: course.

alberto rawlins: I mean each guy each guy that complete the course could be a student or a employee of a company or an individual that purchased the the

Peter Nemrow: Yeah.

alberto rawlins: course.

Peter Nemrow: So I I think the design would be when they complete the test and they pass,

alberto rawlins: Mhm.

Peter Nemrow: if they paid for the photo ID at the beginning,

00:28:52

alberto rawlins: Perfect. Upload the picture now.

Peter Nemrow: then upload the picture. If they did not pay,

alberto rawlins: Yeah.

Peter Nemrow: then we'll have we'll give them a button to add the photo

alberto rawlins: Yeah. Perfect. Yeah.

Peter Nemrow: ID.

alberto rawlins: Because you know it's in terms of profitability a picture for \$25 is almost half of the license an

Peter Nemrow: Yeah.

alberto rawlins: additional revenue for that.

Peter Nemrow: Okay. Yeah. So, we won't offer it twice. Um Okay.

alberto rawlins: Good.

Peter Nemrow: I I think that I've got all of the design feedback that I need to I think we're getting close to being ready. Um obviously we need to test you and I need to test, but I I think that um I'll get all of these updates put in

alberto rawlins: Mhm.

Peter Nemrow: and by next week you and I should be able to start testing again.

alberto rawlins: Perfect.

Peter Nemrow: we have, you know, I've made it easier for us to go and check things and test them out. So, there's a lot of, you know, uh we're not there yet, but there's we're we're going to get there

00:30:07

alberto rawlins: Yeah, but it's it's looking good.

Peter Nemrow: soon.

alberto rawlins: I mean, what what what I see is is is looking good. I like

Peter Nemrow: Great.

alberto rawlins: it.

Peter Nemrow: I'm I'm so happy for that. So, um is there any other questions or things you wanted to discuss?

alberto rawlins: Um to be honest I don't have anything else in mind. I think uh when I when I start when we start testing and following the process that's when all the questions are going to are going to come out because sometimes when you actually see all the options and go into details uh probably uh I will have more but so far I don't have any other uh

Peter Nemrow: Okay,

alberto rawlins: question.

Peter Nemrow: that's great. Um,

alberto rawlins: Okay.

Peter Nemrow: thank you so much,

alberto rawlins: No thank you.

Peter Nemrow: Alberto.

alberto rawlins: When when are you coming back?

Peter Nemrow: Uh, I'm coming back on like August 10th.

alberto rawlins: Oh, you're going to be long time

Peter Nemrow: Yeah,

alberto rawlins: there.

Peter Nemrow: my we're my son is doing a tennis camp

00:31:09

alberto rawlins: Oh,

Peter Nemrow: here and and then we're doing a family reunion after

alberto rawlins: okay.

Peter Nemrow: that. So, we're going to be here for a

alberto rawlins: Perfect. Wow,

Peter Nemrow: while.

alberto rawlins: that's good. That's good. Is he good playing tennis?

Peter Nemrow: Yes, he is. He's um

alberto rawlins: I used to play tennis when I was a kid.

Peter Nemrow: he'll

alberto rawlins: I I reach first category. Yeah. Yeah. Well,

Peter Nemrow: really

alberto rawlins: I stopped playing like 20 years ago, but I'm still have the skills. I then I started to play because I didn't have the

Peter Nemrow: Uh-huh.

alberto rawlins: time to spend two hours in two or three sets. So, I start playing squash and and uh raetball and also paddle tennis.

Peter Nemrow: Pickle ball.

alberto rawlins: I don't know if you paddle tennis.

Peter Nemrow: How about I I know pedal tennis. I'm Did you ever do pickle

alberto rawlins: Yeah. Well, you know,

Peter Nemrow: ball?

alberto rawlins: I started to play pickle ball here with my wife a couple of years ago. U but of course, I mean, it's it's it's too slow. I mean, I don't like much. I mean, for old people, yeah, it's kind of fun, but uh I I I want something more excited that you have to run, sweat, and all that.

Peter Nemrow: Yeah.

alberto rawlins: And then it it takes too much time pickle ball to to get at that point.

Peter Nemrow: Yeah. I like ping pong because I don't I don't I don't have to

alberto rawlins: Ping pong. I use Well,

Peter Nemrow: move.

alberto rawlins: I I used to play ping pong also a lot.

Peter Nemrow: Yeah.

alberto rawlins: Yeah.

Peter Nemrow: Well, we should play sometime.

alberto rawlins: Yeah. Yeah. Definitely. Definitely. Okay,

Peter Nemrow: Great.

alberto rawlins: Peter. Uh, have a good uh well, I don't know if it's uh holidays or not, but if enjoy the time there.

Peter Nemrow: Yeah. Thank you, Albert.

alberto rawlins: Okay.

Peter Nemrow: Okay,

alberto rawlins: Thank you.

Peter Nemrow: bye.

alberto rawlins: Bye-bye. Bye.
